Equipping Leaders For Juvenile Justice Improvement

In 2007, the **Connecting the Pathways Conference** brought together juvenile justice stakeholders from across the state in an innovative and productive way.

Re-Connecting the Pathways will build upon the foundation laid by the earlier Pathways conference.

Re-Connecting will focus specifically on the role of local leadership for juvenile justice improvement.

Local teams, including juvenile justice councils or other multi-disciplinary groups, are encouraged to attend together. The conference schedule will allow teams to process and plan together.

Individuals are also welcome to register and attend.

Sessions will include information on:

*Prevention Strategies
Alternatives to Detention & Incarceration
Effective Treatment
Funding
Data
DMC
Youth & Family Voices*
